I. INTRODUCTION AND PURPOSE

There has been much confusion when determining whether a staff cost should be allocable as a program administrative cost or an activity delivery cost, as well as confusion over the treatment of direct or indirect costs associated with these two cost categories.

This Notice provides guidance on the allocation of staff costs for the CDBG program between two cost categories: (1) general program administrative costs, as related to overall program planning and CDBG grant administration; and (2) activity delivery costs, as related to implementing and carrying out specific CDBG-eligible activities.

HUD recognizes that the existing use of “administration” throughout its regulations can cause confusion. To clarify, the Office of Block Grant Assistance will use the term PACs for Program Administrative Costs and ADCs for Activity Delivery Costs, in order to differentiate between the two.

The Office of Management and Budget (OMB) establishes principles to maintain a uniform approach for determining costs and promoting effective program delivery and efficiency. The most applicable sections to the CDBG program are: OMB Circular A-87, which has been relocated to 2 CFR Part 225, and contains the Cost Principles for State, Local, and Indian Tribe Governments, and OMB Circular A-122, which has been relocated to 2 CFR Part 230, and contains the Cost Principles for Nonprofit Organizations. The basic guidelines address the following aspects of costs: the factors of cost allowability, cost reasonableness, allocable costs, applicable credits, and the composition of costs as either direct or indirect. These principles also provide guidance for allocating allowable costs to program administration costs or activities with final cost objectives (see Appendix C for definition of final cost objectives) to activity delivery costs.

The Insular Areas (Guam, Virgin Islands, American Samoa, Trust Territory of the Pacific Islands, and the Northern Mariana Islands) and Nonentitlement Areas in Hawaii follow the Part 570 regulations for entitlement communities regarding PACs and ADCs. The treatment of these costs for the State CDBG program is not addressed in this guidance.

II. BACKGROUND

Program administration costs (PACs). The statutory provision regarding the eligible use of CDBG funds to pay PACs is section 105(a)(13) of the Housing and Community Development of 1974, as amended (the HCDA). The general program administration regulations are codified at 24 CFR 570.205 and 570.206. Costs attributable to program administration are limited in that not more than 20 percent of the annual grant, and the estimated amount of program income to be received during the grantee’s current program year, can be obligated by entitlement grantees, Insular Areas, and Nonentitlement Counties in Hawaii for such costs. The 20 percent limitation is not contained in the HCDA, but has been included in annual appropriations acts for the CDBG program since 1978. The limitation on program administration costs is codified at 24 CFR 570.200(g). Examples of program administration costs allocable to the CDBG program include the following:
1. Salaries of executive officers and staff with general program oversight responsibilities;
2. Leased office space for staff employed in carrying out the CDBG program;
3. Staff time spent for the development of general CDBG program policies and procedures, such as the monitoring of overall program performance;
4. Staff time spent for the development of the Consolidated Plan/Action Plan and Consolidated Annual Performance and Evaluation Report (CAPER); and
5. Administrative services performed under third-party contracts, such as legal, accounting, and auditing services or development of the Consolidated Plan.

As noted above, under the authority of 24 CFR 570.206, CDBG funds may be used to pay staff costs for persons responsible for general CDBG program administration as a whole. These general PACs cover such positions as a community development director, urban planner generalists, and general administrative and clerical staff. In addition, staff costs associated with compliance oversight and monitoring of a grantee’s subrecipients would generally fall under the program administration cost category as well unless such costs may be allocated to a final cost objective.

Activity delivery costs (ADCs). ADCs are those allowable costs incurred for implementing and carrying out eligible CDBG activities. All ADCs are allocable to a CDBG activity, including direct and indirect costs integral to the delivery of the final CDBG-assisted activity. CDBG expenditures for activity delivery costs are not governed by 24 CFR 570.205 and 570.206.

To recognize the difference between ADCs and PACs, 24 CFR 570.206 notes that “staff and overhead costs directly related to carrying out activities [are] eligible under 570.204, since those costs are eligible as part of such activities.” In addition, 24 CFR 570.205(a)(4)(iii) and (iv) state that “…engineering and design costs related to a specific activity… are eligible as part of the cost of such activity under 570.201-570.204.” Examples of ADCs allocable to CDBG activities include the following:

1. Compensation of employees for the time devoted to the performance of implementing and carrying out a specific eligible CDBG activity, such as carrying out as a public service or implementing an ongoing housing rehabilitation program;
2. Cost of materials acquired, consumed, or expended by staff in carrying out a specific eligible CDBG activity, such as the paper for housing rehabilitation program applications or uniforms for code enforcement staff working in eligible areas; and
3. Travel costs incurred specifically for carrying out eligible activities, such as visits made to the job site of a housing rehabilitation activity to ensure legitimate progress payments.

Direct and Indirect Costs. All costs are either direct or indirect under every accounting system. A cost may be direct with respect to some specific service or function, but indirect with respect to the Federal award or other final cost objective. General standards and guidelines for determining direct and indirect costs charged to Federal awards are provided at Appendix A to 2 CFR Part 225.
According to Appendix C, Section E, direct costs are those that can be identified specifically with a particular final cost objective. Typical direct costs chargeable to Federal awards are compensation of employees for the time devoted and identified specifically to the performance of those awards; the cost of materials acquired, consumed, or expended specifically for the purpose of those awards; equipment and other approved capital expenditures; and travel expenses incurred specifically to carry out the award. In addition, any direct cost of a minor amount may be treated as an indirect cost for reasons of practicality where such accounting treatment for that item of cost is consistently applied to all cost objectives.

According to Section F of Appendix A, general indirect costs are those incurred for a common or joint purpose benefitting more than one cost objective, and not readily assignable to the cost objectives specifically benefited, without effort disproportionate to the results achieved. The term "indirect costs," as used herein, applies to costs of this type originating in the grantee department, as well as those incurred by other departments in supplying goods, services, and facilities. To facilitate equitable distribution of indirect expenses to the cost objectives served, it may be necessary to establish a number of pools of indirect costs within a governmental unit department or in other agencies providing services to a governmental unit department. Indirect cost pools should be distributed to benefitted cost objectives on bases that will produce an equitable result in consideration of relative benefits derived.

III. ALLOCATION OF STAFF COSTS

A. Program Administration Costs (PACs)

The allocation of staff-time costs and overhead charges to general program administration is eligible under 24 CFR 570.205 and 570.206. These provisions allow "reasonable administrative costs and carrying charges related to the planning and execution of community development activities assisted in whole or in part [with CDBG funds]." As set forth at 24 CFR 570.200(g), HUD will find a grantee in compliance with this requirement if the grantee limits the amount of CDBG funds obligated for planning plus administration during each program year to an amount not greater than 20 percent of the sum of its entitlement grant made for that program year plus the estimated amount of program income to be received by the grantee and its subrecipients during that same program year.

1. The National Objective and Proportional Costs

The HCDA requires that CDBG expenditures be made for eligible activities that result in meeting one of three national objectives: (1) provides benefit principally to persons of low and moderate income (LMI); (2) aids in the prevention or elimination of slums or blight; or (3) meet a need having a particular urgency that the grantee is unable to finance on its own. However, general PACs are not required to meet a specific CDBG national objective because such costs are generally made in support of other CDBG-eligible activities that meet a national objective. Thus, PACs are not calculated under the 70 percent overall LMI benefit requirement at 24 CFR 570.200(a)(3)(i).
Where an individual performs general administration functions and implements specific eligible CDBG activities under 24 CFR 570.201-204, the grantee may elect to charge all of such staff costs to the program administration category, or only a portion of such costs to program administration, with the balance of CDBG-eligible costs allocable to the activity as ADCs. It is important that the grantee ensure that only ADC-eligible costs are charged to this category. However, PACs may not be charged as ADCs. It is also important that the treatment of dividing allocable costs between PACs and ADCs is consistently applied and supported by staff timesheet documentation relative to specific eligible activities.

2. Urban County and Subrecipient Administrative Costs

An urban county entitlement grantee must be especially cognizant of allocating staff costs for general administration and oversight of its CDBG program. To carry out any eligible CDBG activity, the county can use its own staff, the staff of a unit of general local government (UGLG), a subrecipient’s staff [as defined in 24 CFR 570.500(c)], or contractor’s staff [as procured in compliance with 24 CFR 570.85.36]. An urban county has a unique relationship with an UGLG, as it is required to impose upon a participating UGLG the same requirements that apply to a subrecipient [See 24 CFR 570.501(b) and 570.503 requirements]. Persons responsible for administering the general CDBG program as a whole either at the county level or the UGLG level would incur staff costs allocable to the general program administration costs category [24 CFR 570.206] and thus be subject to the 20 percent cap. (HUD has issued previous guidance on subrecipient agreements and grantee management in “Managing CDBG: a Guidebook for Entitlement Grantees on Subrecipient Oversight,” March 2005.)

UGLGS are generally awarded CDBG funds by the urban county and treated as subrecipients to carry out eligible activities within the county’s boundaries. The county uses its staff to administer UGLG cooperation agreements and monitor UGLG performance as appropriate. Notwithstanding, a question may arise regarding the salary of a person that works for the UGLG that is carrying out a series of eligible activities, as there may be instances in which the UGLG staff generally administer the contract and contract performance, and carry out a portion of the associated ADCs for a project with a final cost objective. In such instances, the UGLG’s staff time shall be prorated and allocated to each cost category (PACs and ADCs) accordingly. Care is warranted, as it is the urban county that is responsible for ensuring that staff costs incurred by the UGLG are allocated appropriately as PACs or ADCs as described in this Notice. County staff may incur both ADCs and PACs in some cases. An example is conducting or attending job walks, bid openings, and pre-construction conferences for construction projects. If the urban county is overseeing and reviewing preconstruction activities for a participating UGLG, the cost would be classified as a PAC. However, if the county was directly managing pre-construction activity rather than the UGLG, the cost would be classified as an ADC.

Grantees are reminded to monitor activities carried out by their staff and their subrecipients to ensure that general administrative costs are not inappropriately charged as activity delivery costs as a means to avoid the 20 percent program administration cap. Moreover, all costs must be allocable as either direct or indirect costs according to 2 CFR 225.
3. Allocating other CPD programs’ administrative costs to CDBG

Grantees may charge other formula program [e.g., HOME, ESG, or HOPWA] PACs to the CDBG program in certain circumstances, subject to the limitations below. However, this is not permitted with CDBG Disaster Recovery funds. PACs are allocable to other formula CDBG programs in proportion to the amount of time staff spend working on such programs, or with regard to managing activities in support of other programs, such as is the case with the use of CDBG to pay general program administration costs for the HOME program [24 CFR 570.206(i)(2)]. However, it is critical to note that where such costs are collectively treated as program administration because they are subject to the CDBG program’s overall 20 percent cap on PACs.

Grantees must maintain adequate records and documentation in support of all costs, as set forth in the following sections of the regulations: 24 CFR 570.502 and 570.506; and Part 85.20, standards for financial management systems. Additionally, the grantee’s records should clearly show there is a consistent treatment of like costs under similar circumstances.

a. HOME and EZ/EC Costs. Section 105(a)(13) of the HCDA and 24 CFR 570.206(i) provide that CDBG funds may be used to pay costs for carrying out the overall administration of a federally designated Empowerment Zone (EZ) or Enterprise Community (EC), and the Affordable Housing Program (HOME) under 24 CFR Part 92 and 24 CFR 570.206. Renewal Communities (RCs) are not included as eligible communities under this statutory and regulatory provision. CDBG funds may be used to pay a combination of PACs for these EZs, ECs, and the HOME program; however as noted earlier, the combined costs for using CDBG in this manner is subject to CDBG’s overall 20 percent cap. To illustrate, in a current program year, if a grantee decides to obligate 10 percent of its program administration budget for the HOME program, then it must limit its obligations for its CDBG program administration costs to 10 percent in the same program year.

Section 105(a)(20) of the HCDA states that CDBG funds may be used to pay for housing services associated with projects assisted under the HOME program. This CDBG eligible activity was promulgated under 24 CFR 570.201(k) in the Entitlement program. Hence, while HOME program administration costs remained eligible under Section 105(a)(13) of the HCDA and 24 CFR 570.206(i) in the Entitlement program, HOME ADCs became eligible under 24 CFR 570.201(k). (See section III B. of this Notice for further discussion of ADCs under the HOME program.)

b. ESG, SHP, HOPWA Costs. As a general rule, neither the statute nor the regulations provide for the use of CDBG funds to pay PACs solely for the administration of the following CPD programs: Emergency Solutions Grant (ESG) program, the Supportive Housing Program (SHP) program, RCs, or the Housing Opportunities for Persons with AIDS (HOPWA) program. For example, a staff person in a general administrative position that works only for the ESG program may not be paid with CDBG funds for their time spent on the ESG program.
Notwithstanding, there are circumstances where CDBG funds may be used for staff administration costs associated with eligible ESG, SHP, or HOPWA activities (such as homeless services, health screening, or job training). CDBG funds may be used to pay PACs attributable to any of these programs if the activities carried out are otherwise CDBG eligible and meet all CDBG requirements (e.g., eligibility, national objective compliance, and environmental review requirements). For example, when a staff person spends most of his/her time administering the CDBG program, and a small part of their time carrying out general administrative functions for the ESG program, the only administrative staff time allocable to the CDBG program is that time spent on administering the CDBG program and carrying out CDBG-eligible ESG activities.

c. Consolidated Plan and Annual Action Plan Costs. Another circumstance where costs are eligible as CDBG PACs is when the grantee is preparing its Consolidated Plan and/or annual Action Plan [24 CFR Part 91]. During this program administration exercise, staff costs associated with all of the components of completing the Consolidated Plan to be assisted by any or all four CPD formula grant programs (CDBG, HOME, ESG, and HOPWA) to be identified in the Consolidated Plan and annual Action Plan may be allocated to the CDBG program as PACs. [See 24 CFR 570.205 and .206.]

4. Other types of eligible administrative staff costs

a. Administrative expenses to facilitate housing. Often grantees ask whether or not they can charge planning and financial administrative costs for housing to the CDBG program under 24 CFR 570.206(g). However, 24 CFR 570.206(g) refers to housing identified in a recipient’s Housing Assistance Plan (the HAP), which is no longer in use and was replaced by the Consolidated Plan. Inasmuch as the Consolidated Plan includes non-housing activities, and is not exclusively limited to low- and moderate-income persons, the Department has determined that 24 CFR 570.206(g) cannot be read to substitute costs related to the Consolidated Plan for costs formerly eligible in connection with the HAP. However, if a specific activity is construed to involve a HAP-type implementing activity, the Department is willing to consider a waiver of this section of the regulations to permit the expenditure of CDBG funds for statutorily permissible planning and administrative expenses designed to facilitate housing development. The Assistant Secretary for Community Planning and Development (CPD) will make the final written determination with regard to a CPD program waiver.

b. Activities to further fair housing. The costs associated with the development of an analysis of impediments to fair housing and development and implementing local initiatives to affirmatively further fair housing may be allocated to the Consolidated Planning activity as program administration costs. Alternatively, certain fair housing activity costs, such as housing counseling, may be CDBG-eligible and allocable as activity delivery costs.
5. Ineligible Costs

*General administrative affairs of government.* Per Section 102(a)(21) of the HCDA and 24 CFR 570.207(a)(1), buildings or portions thereof used for the general conduct of government cannot be assisted with CDBG funds. HUD’s Office of General Counsel has stated the “general administrative affairs of government” consists of overall departmental and program management and operation functions, including executive, management, and clerical functions; and purely administration function such as personnel, legal, and accounting departments.

6. Identifying A Final Cost Objective

In the initial stages of creating a project, there may be general administrative costs allocable as PACs; however, as the project progresses, such costs may qualify as implementing ADCs and linked to the final cost objective. This is consistent with treating costs that support the final cost objective. For example, costs identified as PACs at the onset of a project, such as preparing a request for proposal, reviewing bid proposals, and preparing contract documents, may be administrative in nature, but if such costs are part of the implementation of the activity and can be identified with a final cost objective, then allocating such staff costs as ADCs is the appropriate cost treatment.

On the other hand, a grantee must be aware of the risk associated with initiating a project that does not materialize or reach fruition and, therefore, does not meet a CDBG national objective or a final cost objective. In such cases, the incomplete activity will most likely be determined ineligible and the staff costs disallowed or possibly considered general administrative costs. When such costs are assigned as PACs, the grantee’s obligations may exceed the 20 percent program administration cost limitation. Accordingly, HUD may advise the grantee to repay its CDBG program line-of-credit with non-federal funds for the amount in excess of the 20 percent cap.

Grantees must maintain adequate records and documentation in support of all costs, as set forth in 24 CFR 570.502 and 570.506, and Part 85.20, standards for financial management systems. Additionally, the grantee’s records should clearly show there is a consistent treatment of like costs under similar circumstances.

There has been confusion in allocating staff costs associated with complex activities designed to operate as programs. Such activities include housing rehabilitation programs, economic development loan programs, microenterprise development programs, and homebuyer assistance programs. To be clear, housing rehabilitation administration is the only activity that has a separate IDIS matrix code that allows for the allocation of administrative costs as ADCs. This category is used to charge housing rehabilitation administration costs for all CDBG-assisted housing rehabilitation and housing rehabilitation carried out using other funding sources that meet all CDBG program requirements. For other program-type activities, general program administrative costs are treated as PACs and subject to the 20 percent cap. For this reason, grantees operating programs must use care in identifying which costs can be consistently treated as ADCs (i.e., part of delivering a final cost objective) versus those costs that are identified as general administration costs. See Table 1 below regarding the allocation of costs and HUD’s
Integrated Disbursement and Information System (IDIS), Matrix Codes. The table shows eligible activities, the proper cost category, statutory and regulatory references, and the IDIS matrix codes.

B. Activity Delivery Costs (ADCs)

1. General

Activity delivery costs (ADCs) are those costs not subject to the 20 percent limitation for PACs. ADC staff costs are considered part of the costs for carrying out an eligible CDBG activity pursuant to 24 CFR 570.201 – 570.204. Accordingly they are treated as part of the total cost for delivering a final cost objective under the CDBG program. This is the only limiting requirement – that ADCs are incurred in order to implement and carry out specific CDBG-assisted activities. 24 CFR 570.205(a)(4)(iii) affirms this as it states, “...engineering and design costs related to a specific activity...are eligible as part of the cost of such activity under 570.201-570.204.”

At times the initial costs for an eligible CDBG activity may be treated as administrative costs; however, in the activity’s final accounting, it may be more appropriate to treat these costs as ADCs. Generally, for example, staff costs for performing environmental reviews or housing relocation work are considered part of the total ADCs associated with the underlying CDBG-assisted activity. At times, incurring up-front costs may appear PACs in nature, but upon completion of the activity these costs can re-allocated as ADCs. As an example, if staff time spent for preparing and issuing a request for proposals (RFP) for multifamily housing rehabilitation, reviewing and selecting bids, and preparing contract documents and notices to proceed can be identified as part of the final cost objective, then allocating these costs as ADCs is the appropriate cost treatment for those properties that proceed to completion and occupancy.

Notwithstanding, there is risk in allocating costs in this manner. Where an activity is not completed, or the activity does not meet a CDBG national objective, the up-front costs must be allocated as PACs because they cannot be associated with achieving a final cost objective. In such cases where this would result in obligations or expenditures exceeding a grantee’s 20 percent program administration cap, HUD may advise the grantee to repay its CDBG program for any amount above the cap with non-federal funds. In the above example, staff time spent reviewing proposals for multifamily housing rehabilitation projects that do not proceed to completion cannot be charged as ADCs, as there is no funded activity (and no final cost objective) to charge them to.

It is important to recognize that staff time allocable as ADCs represents the actual time spent on implementing and completing an eligible CDBG activity. For example, staff time for a housing rehabilitation specialist, whose duties are to make home inspections, prepare work write-ups, and inspect projects through completion, would be 100 percent allocable as rehabilitation activity delivery costs. However, circumstances may require that the project incurs other staff costs for personnel that spend less than 100 percent of their time working for the rehabilitation program. For example, a project may need a city engineer to approve, inspect, and sign off on integral structural improvement. Hence, the engineer’s staff-time can be prorated and allocable as ADCs in support of the final cost objective.

As another example, perhaps a project calls for the temporary relocation of a household while the removal of lead-based paint is performed for a housing rehabilitation project. Staff costs for those carrying out the relocation portion of activity could be considered part of the
ADCs for the housing rehabilitation activity as a whole. (See also the IDIS Matrix Code 14H definition regarding housing rehabilitation administration as activity delivery costs.)

CDBG funds may be used for ADCs in conjunction with other CPD formula grant activities (e.g., assisted with HOME, ESG, or HOPWA) where the activity is otherwise CDBG eligible and meets a national objective. But, because the activity is assisted in whole or in part with CDBG, it is subject to all CDBG rules and federal requirements in addition to those rules of the other grant programs. As stated above, however, this does provide for the use of CDBG funds for general PACs associated with the other formula programs.

2. Costs in support of the HOME Program

Generally, new construction housing is an ineligible CDBG activity as set forth at 24 CFR 570.207. However, the use of CDBG in the support of HOME-assisted projects has been eligible since the enactment of CDBG statutory amendments made in 1992. Initially, the use of CDBG with HOME funds was subject to CDBG’s 20 percent limit on general program administration. Subsequent statutory amendments removed this restriction. Section 105(a)(20) of the ICDA states that CDBG funds may be used to pay for housing services in support of HOME-assisted projects. This provision is codified in the CDBG regulations at 24 CFR 570.201(k).

Thus, while the use of CDBG for HOME program administration costs remained eligible under 24 CFR 570.206(g), it was clarified at 24 CFR 570.201(k) that the use of CDBG funds is an eligible use in support of a HOME-assisted project. The overall intent of this change was to provide for a broad array CDBG uses in support of HOME-assisted projects. The statute and 24 CFR 570.201(k) refers to CDBG eligible ADCs for HOME under the term “housing services.” Housing services are eligible under 24 CFR 570.201(k). Eligible CDBG-HOME housing services include such things as housing counseling and tenant-based rental assistance, energy auditing, work specifications and architectural plans, loan processing, tenant selection, and other services related to assisting owners, tenants, third party entities participating or seeking to participate in a HOME project.

Please note, however, that the eligibility and benefit requirements of the CDBG and HOME programs differ in that the HOME term “project” and the CDBG term “activity” are not synonymous, and that care should be exercised in management and documentation when blending the two sources of funds on one activities.

3. Public Service Costs

Staff costs for carrying out public services associated with another CPD program are also eligible providing that public service is eligible and meets a national objective. As an example, for a nonprofit organization providing health services to homeless persons or persons with AIDS, payment of the employee’s salary delivering the services (rather than an Executive Director or Chief Operating Officer) would be eligible as part of carrying out the underlying public service. The provision of health services is a CDBG-eligible public service activity under Section 105(a)(8) and 24 CFR 570.201(e). Therefore the grantee may use CDBG funds to pay the
employee’s salary that is carrying out the public service as an ADC, providing the non-profit meet the compliance requirements under the public service provision and the CDBG program in general. That is to say, if the activity is a new public service or a quantifiable increase in the level of an existing public service, staff costs allocable to CDBG are limited by the grantee’s overall 15 percent public service cap.

[Note: Public service expenditures are limited to not more than 15 percent of a grantee’s annual CDBG allocation plus 15 percent of their prior year’s program income. This requirement is statutory under Section 105(a)(8) of the HCDA.]

IV. DIRECT AND INDIRECT COSTS

There is no universal rule for classifying certain costs as either direct or indirect under every accounting system. A cost may be direct with respect to a certain service or function, but indirect with respect to the Federal award or other final cost objective. Thus, certain indirect costs may be allocable as part of carrying out an eligible CDBG activity, such as housing rehabilitation, and appropriately identified and treated as ADCs. General guidelines for determining direct and indirect costs charged to Federal awards are provided at 2 CFR 225 (formerly OMB Circular A-87). A brief discussion of these costs categories follows.

**Direct costs** are those that can be identified specifically with a particular final cost objective. Typical direct costs chargeable to Federal awards are:

- a. Compensation of employees for the time devoted and identified specifically to the performance of those awards;
- b. Cost of materials acquired, consumed, or expended specifically for the purpose of those awards;
- c. Equipment and other approved capital expenditures;
- d. Travel expenses incurred specifically to carry out the award;

Any direct cost of a minor amount may be treated as an indirect cost for reasons of practicality where such accounting treatment for that item of cost is consistently applied to all cost objectives.

**Indirect costs** are those incurred for a common or joint purpose and benefiting more than one cost objective. They are not readily assignable to the cost objective specifically benefitting from the award without effort disproportionate to the results achieved. The term “indirect costs,” as used by OMB, applies to costs that originate in the grantee’s CDBG department and other departments that supply goods, services, and facilities for carrying out the CDBG program. Indirect costs examples are as follows:

- a. Central services costs, such as motor pools, computer centers, accounting office space leases, telephone service, utility bills, copy machines, etc.;
- b. Internal service costs, such as personnel, general administration, and purchasing;
- c. Legal costs and self-insurance costs; and
- d. Fringe benefit costs, such as pensions and health insurance.
In addition to restrictions contained in 2 CFR Part 225, there may be state or local laws that further limit the amount of administrative or indirect cost allowed. Moreover, amounts not recoverable as indirect costs or administrative costs allocable to one Federal award may not be shifted to another Federal award, unless specifically authorized by Federal legislation or regulation.

V. OTHER FINANCIAL MANAGEMENT REQUIREMENTS

1. General

The Office of Management and Budget (OMB) establishes cost principles to establish a uniform approach for determining costs to ensure effective and efficient program delivery. The most applicable sections to the CDBG program are the following: OMB Circular A-87 [relocated to 2 CFR Part 225], which contains the Cost Principles for State, Local and Indian Tribe Governments; and OMB Circular A-122 [relocated to 2 CFR Part 230], which contains the Cost Principles for Nonprofit Organizations. These cost principles are incorporated into the CDBG regulations by reference, but most substantially at 24 CFR 570.500 – 505.

The OMB basic guidelines apply to all federal agencies and address the following cost categories: allocable and allowable, reasonable costs, cost composition as a direct or indirect cost, and the treatment of applicable credits or offsetting costs. Accordingly, these principles effect the allocation of allowable staff costs to general administration activities or otherwise CDBG-eligible activity costs that are associated with a final cost objective. Generally, OMB advises that costs be accorded consistent treatment in order to enhance the likelihood that comparable costs are treated similarly in the application of cost accounting practices. OMB also advises that a cost may not be assigned to a Federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the Federal award as an indirect cost. Attachment D provides paraphrased excerpts from OMB’s Cost Principles.

2. Applicable Credits

In general, applicable credits reduce the net amount of CDBG funds necessary to carry out an eligible CDBG activity (see 2 CFR part 225, Appendices A). Applicable credits refer to receipts or reductions of expenditure-type transactions that offset or reduce a cost item that is allocable to a Federal award as either a direct or indirect cost. To the extent that such offsets or credits are received by the governmental unit, they shall be credited to the Federal award either as a cost reduction or cash refund, as appropriate. Examples of transactions that generate applicable credits are the following:

- The collection of loan application fees associated with provisions of financial assistance to rehabilitate privately-owned multifamily housing [24 CFR 570.202]. Such fees are often collected to assure the applicant’s commitment to providing the necessary underwriting and compliance documentation for the project;
• The collection of loan application fees for provisions of financial assistance to for-profit businesses [economic development activities at 24 CFR 570.203(b)]. Such fees are collected to assure a commitment from the applicant/borrower to provide documentation necessary for the grantee to conduct a prudent financial underwriting; and,

• Taking advantage of purchase discounts, rebates, or allowances, and accounting for adjustments for overpayments or erroneous charges associated with an eligible activity.

• Code enforcement fines, but only if (1) the cost of the code inspections and enforcement and/or the inspectors’ salaries must have been wholly or partially paid for with CDBG funds, and (2) the intended purpose of the code enforcement fine (as reflected in local law, handbook, manual, etc.) is to recover the costs incurred for the code enforcement activities without regard to the source of funds for payment of the code enforcement activity.

VI. CONCLUSION

Table 3 presents a snapshot of the relationships among costs. Appendix A provides instructions on how to calculate the amount that may be used for PACs for Entitlements. Appendix B provides a Functional Staff Cost Model. Appendix C provides the OMB Cost Definitions and Guidelines. Additional guidance may also be found in The CDBG Guide to National Objectives and Eligible Activities, located on the web at: http://portal.hud.gov/hudportal/documents/huddoc?id=DOC_17133.pdf. Questions regarding this Notice should be directed to your local HUD Field Office.

- Applicable Credits
APPENDIX A

Program Administration Cap Calculation for Entitlements

Description

Not more than 20 percent of the sum of any grant plus program income that is received during the program year may be obligated by the grantee and its subrecipients for program administration costs, as defined in §570.205 and §570.206, respectively. Recipients of entitlement grants will be considered to be in conformance with this limitation if total obligations charged under those categories during the grantee’s most recently completed program year, without regard to the source year of funds, are not greater than 20% of the sum of the entitlement grant received for that program year plus the program income received during that program year by the grantee and its subrecipients. [References: Appropriation Acts and §570.200(g)]

Calculating the Cap

To determine the base against which the 20% cap will be applied, total the amount of CDBG funds received during the program year from the following sources:

Step 1

(1) Entitlement Grant (from line 8.b of the Funding Approval form, HUD-7082): $__________

(2) Surplus from Urban Renewal (from line 10.b of the Funding Approval form): $__________

(3) Program income received by the grantee and its Subrecipients: $__________

(4) TOTAL $__________

Step 2

(1) To calculate the cap amount, multiply the total amount determined in line (4) above by 0.20 and enter the number here: $__________

This amount represents the cap; it is the maximum dollar amount that may be obligated during the program year and charged to the eligible categories of program administration, §570.205 and §570.206, respectively.
Determining Compliance with the Cap

Step 3

Compliance with the cap is determined for entitlement grantees by performing the calculation below at the end of each program year, as follows:

(1) Determine the total amount of CDBG funds expended during the program year for activities that are classified as eligible under §570.205 (Planning and Capacity Building) and §570.206 (Program Administration Costs): $ __________

(2) Add to the above amount the total amount of unliquidated obligations for activities under these same two categories, as of the end of the program year: $ __________

(3) Subtract from the balance the total amount of unliquidated obligations for these two categories, as of the end of the preceding program year: $(_________)

(4) Enter here the result of the above calculations. This is the amount of net obligations for Program Administration during the program year: $ __________

To be in compliance with the 20% cap, the amount determined above, as the net amount obligated, may not exceed the amount determined as the cap in Line 1 for the year in the first portion of this subsection (see Step 2 above).

Net amount obligated Line (4) above: $ __________
Cannot be greater than the cap: $ __________

APPENDIX C

OMB COST DEFINITIONS AND GUIDELINES

The terms and definitions provided below are derived from the Office of Management and Budget (OMB), which establishes principles and standards to provide a uniform approach for determining allocable and allowable costs to promote effective program delivery and efficiency. Heretofore, OMB guidance was set forth in Circular A–87, “Cost Principles for State, Local, and Indian Tribal Governments.” However, A-87 has recently been relocated to the federal regulations at 2 CFR Part 225. This was part of an initiative to provide the public with a central location for Federal government policies on grants and other financial assistance and non-procurement agreements (See website link below.) These definitions have been paraphrased to reflect relevant terms used for identifying and treating allowable costs applicable to the CDBG program. For the precise language that applies to any aspect, please go the following OMB website:

DEFINITIONS

1. Cost means an amount as determined on a cash, accrual, or other basis acceptable to the Federal awarding or cognizant agency. It does not include transfers to a general or similar fund.
2. Cost objective means a function, organizational subdivision, contract, grant, or other activity for which cost data are needed and for which costs are incurred.
3. Final cost objective means a cost objective, that has allocated to it both direct and indirect costs and is a final accumulation point. For example, this could be an eligible CDBG activity of rehabilitating a single-family dwelling that upon completion will meet a low- and moderate-income household national objective.
4. Allocate means to assign an item of cost or a group of items of cost, to one or more cost objectives, such as an eligible CDBG activity. This term includes both direct assignment of cost and the reassignment of a share of costs from an indirect cost pool, such as accounting services applicable to overall program PACS.
5. Allocable costs:
   a. A cost is allocable to a particular cost objective if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received.
   b. All activities which benefit from the governmental unit’s indirect cost, including unallowable activities, will receive an appropriate allocation of indirect costs.
   c. Any allocable cost to a particular Federal award or cost objective under the principles provided for in 2 CFR Part 225 may not be charged to other Federal awards to overcome fund deficiencies, to avoid restrictions imposed by law or terms of the Federal awards, or for other reasons.
   d. Where an accumulation of indirect costs will ultimately result in charges to a Federal award, a cost allocation plan will be required as described in Appendices C, D, and E to this part.
6. Allowable costs. To be allowable under Federal awards, costs must meet several general criteria among them which are the following:
   a. Be necessary and reasonable for proper and efficient performance and administration of the Federal award.
   b. Be consistent with policies, regulations, and procedures that apply uniformly to both Federal awards and other activities of the governmental unit.
   c. Be accorded consistent treatment. A cost may not be assigned to a Federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the Federal award as an indirect cost.
   d. Be adequately documented.
7. **Reasonable costs.** A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost. In determining reasonableness of a given cost, consideration shall be given to whether the cost is of a type generally recognized as ordinary and necessary for the operation of the governmental unit or the performance of the Federal award.
   a. Whether the cost is of a type generally recognized as ordinary and necessary for the operation of the governmental unit or the performance of the Federal award.
   b. The restraints or requirements imposed by such factors as: Sound business practices; arm’s-length bargaining; Federal, State and other laws and regulations; and, terms and conditions of the Federal award. All activities which benefit from the governmental unit’s indirect cost, including unallowable activities, will receive an appropriate allocation of indirect costs.

8. **Applicable credits.** Applicable credits refer to those receipts or reduction of expenditure-type transactions that offset or reduce expense items allocable to Federal awards as direct or indirect costs. Examples of such transactions are: Purchase discounts, rebates or allowances, recoveries or indemnities on losses, insurance refunds or rebates, and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the governmental unit relate to allowable costs, they shall be credited to the Federal award either as a cost reduction or a cash refund, as appropriate.

**Cost Composition**

9. **Total cost.** The total cost of Federal awards is comprised of the allowable direct cost to the CDBG program, plus the allocable portion of allowable indirect costs, less applicable credits.

10. **Classification of costs.** There is no universal rule for classifying certain costs as either direct or indirect under every accounting system. A cost may be direct with respect to some specific service or function, but indirect with respect to the Federal award or other final cost objective. Therefore, it is essential that each item of cost be treated consistently in like circumstances, whether as a direct or an indirect cost. Guidelines for determining direct and indirect costs charged to Federal awards are provided in the section 2 CFR 225.

**Direct Costs**

11. **Direct costs** are generally those that can be identified specifically with a particular final cost objective. Examples of direct costs chargeable to Federal awards are:
   a. Compensation of employees for the time devoted and identified specifically to the performance of those awards.
   b. Cost of materials acquired, consumed, or expended specifically for the purpose of those awards.
   c. Equipment and other approved capital expenditures.
   d. Travel expenses incurred specifically to carry out the award.

12. **Minor items.** Any direct cost of a minor amount may be treated as an indirect cost for reasons of practicality where such accounting treatment for that item of cost is consistently applied to all cost objectives.

**Indirect Costs**

13. **Indirect costs** are those: Incurred for a common or joint purpose benefiting more than one cost objective, and not readily assignable to the cost objectives specifically benefited, without effort disproportionate to the results achieved. The term “indirect costs,” applies to costs of this type originating in the grantee department, as well as those incurred by other departments in supplying goods, services, and facilities. To facilitate equitable distribution of indirect costs to the cost objectives served, it may be necessary to establish a number of pools of indirect costs within a governmental unit department or in other agencies providing services to a governmental unit department. Indirect cost pools should be distributed to benefited cost objectives on bases that will produce an equitable result in consideration of relative benefits derived.

14. **Cost allocation plans and indirect cost proposals.** Requirements for development and submission of cost allocation plans and indirect cost rate proposals are contained in Appendices C, D, and E to 2 CFR Part 225.

15. **Limitation on indirect or administrative costs.**
a. In addition to restrictions contained in 2 CFR Part 225, there may be laws that further limit the amount of administrative or indirect cost allowed.
b. Amounts not recoverable as indirect costs or administrative costs under one Federal award may not be shifted to another Federal award, unless specifically authorized by Federal legislation or regulation.
16. **Interagency Services.** The cost of services provided by one agency to another.
CDBG MATRIX CODE DEFINITIONS
Matrix codes are used to indicate—but do not establish—activity eligibility. An activity must be eligible in accordance with the regulations at 570.201–570.207 for Entitlements. Grantees need to refer to the regulations to determine an activity’s eligibility; the codes defined below are used in IDIS Online chiefly to categorize activities for reporting purposes.

Code Definition

Acquisition & Disposition

01 Acquisition of Real Property
Acquisition of real property that will be developed for a public purpose. Use code 01 for the CDBG-funded purchase of real property on which, for example, a public facility or housing will be constructed.
When CDBG funds are used to:
• acquire a public facility that will be rehabilitated with CDBG funds and continue to be used as a public facility, assign the appropriate 03* code.
• acquire housing that will be rehabilitated, use code 14G.

02 Disposition of Real Property
Costs related to the sale, lease, or donation of real property acquired with CDBG funds or under urban renewal. These include the costs of temporarily maintaining property pending disposition and costs incidental to disposition of the property.

04 Clearance and Demolition
Clearance or demolition of buildings/improvements, or the movement of buildings to other sites.

04A Cleanup of Contaminated Sites
Activities undertaken primarily to clean toxic/environmental waste or contamination from a site.

08 Relocation
Relocation payments and other assistance for permanently or temporarily displaced individuals, families, businesses, non-profit organizations, and farms.

Public Facilities & Improvements

03A Senior Centers
Acquisition, construction, or rehabilitation of facilities (except permanent housing) for seniors. 03A may be used for a facility serving both the elderly and the handicapped provided it is not intended primarily to serve persons with handicaps. If it is, use 03B instead. For the construction of permanent housing for the elderly, use code 12; for the rehabilitation of such housing, use the appropriate 14* code.

03B Facilities for Persons with Disabilities
Acquisition, construction, or rehabilitation of centers, group homes, and other facilities (except permanent housing) for persons with disabilities. 03B may be used for a facility serving both persons with disabilities and the elderly, provided it is not intended primarily to serve the elderly. If it is, use 03A instead. For the construction of permanent housing for persons with disabilities, use code 12; for the rehabilitation of such housing, use the appropriate 14* code.

03C Homeless Facilities (not operating costs)
Acquisition, construction, conversion of buildings, or rehabilitation of temporary shelters and transitional housing for the homeless, including victims of domestic violence, dating violence, sexual assault or stalking, disaster victims, runaway children, drug offenders, and parolees. For the construction of permanent housing for the homeless, use code 12; for the rehabilitation of such housing, use the appropriate 14* code; for facilities for abused and neglected children, use 03Q.

03D Youth Centers
Acquisition, construction, or rehabilitation of facilities intended primarily for young people age 13 to 19. These include playground and recreational facilities that are part of a youth center. For the acquisition, construction or rehabilitation of facilities intended primarily for children age 12 and under, use 03M; for facilities for abused and neglected children, use 03Q.
**03E Neighborhood Facilities**
Acquisition, construction, or rehabilitation of facilities that are principally designed to serve a neighborhood and that will be used for social services or for multiple purposes (including recreation). Such facilities may include libraries and community centers.

**03F Parks, Recreational Facilities**
Development of open space areas or facilities intended primarily for recreational use.

**03G Parking Facilities**
Acquisition, construction, or rehabilitation of parking lots and parking garages. Also use 03G if rehabilitation of a public facility or street improvement is a small part of an activity is to improve a parking facility. *If parking improvements are only a small part of a larger street improvement activity, use 03K.*

**03H Solid Waste Disposal Improvements**
Acquisition, construction or rehabilitation of solid waste disposal facilities. The eligible costs can also include equipment, such as bulldozers, used exclusively at the facility.

**03I Flood Drainage Improvements**
Acquisition, construction, or rehabilitation of flood drainage facilities, such as retention ponds or catch basins, streambank erosion controls, channelization of streambeds, or dams. 03I can also be used for “Green Infrastructure” improvements to manage stormwater. However, if stormwater management improvements are integral to some activity like a park or a street project, it should be included in that matrix code (03F for parks, 03K for streets) rather than 03I. *Do not use 03I for construction/rehabilitation of storm sewers, street drains, or storm drains.*

**03J Water/Sewer Improvements**
Installation or replacement of water lines, sanitary sewers, storm sewers, and fire hydrants. Costs of street repairs (usually repaving) made necessary by water/sewer improvement activities are included under 03J. *For water/sewer improvements that are part of:* 
- more extensive street improvements, use 03K (for example, to an activity that involves paving six blocks of Main Street and installing 100 feet of new water lines in one of those blocks).
- a housing rehabilitation activity, such as water/sewer hookups (lines from a house to the street), use the appropriate 14* housing rehabilitation matrix code.

**03K Street Improvements**
Installation or repair of streets, street drains, storm drains, curbs and gutters, tunnels, bridges, and traffic lights/signs. Also use 03K: *for improvements that include landscaping, street lighting, and/or street signs (commonly referred to as “streetscaping”).*  
- if sidewalk improvements (see code 03L) are part of more extensive street improvements.

**03L Sidewalks**
Improvements to sidewalks. Also use 03L for sidewalk improvements that include the installation of trash receptacles, lighting, benches, and trees.

**03M Child Care Centers**
Acquisition, construction, or rehabilitation of facilities intended primarily for children age 12 and under. Examples are daycare centers and Head Start preschool centers. *For the construction or rehabilitation of facilities for abused and neglected children, use 03Q; for the construction or rehabilitation of facilities for teenagers, use 03D.*

**03N Tree Planting**
Activities limited to tree planting (sometimes referred to as “beautification”). *For streetscape activities that include tree planting, use 03K; for sidewalk improvement activities that include tree planting, use 03L.*

**030 Fire Stations/Equipment**
Acquisition, construction, or rehabilitation of fire stations and/or the purchase of fire trucks and emergency rescue equipment.
03P Health Facilities
Acquisition, construction, or rehabilitation of physical or mental health facilities. Examples of such facilities include neighborhood clinics, hospitals, nursing homes, and convalescent homes. *Health facilities for a specific client group should use the matrix code for that client group. For example, use 03Q for the construction or rehabilitation of health facilities for abused and neglected children.*

03Q Facilities for Abused and Neglected Children
Acquisition, construction, or rehabilitation of daycare centers, treatment facilities, or temporary housing for abused and neglected children.

03R Asbestos Removal
Rehabilitation of any public facility undertaken primarily to remove asbestos.

03S Facilities for AIDS Patients (not operating costs)
Acquisition, construction, or rehabilitation of facilities for the treatment or temporary housing of people who are HIV positive or who have AIDS. *For the construction or rehabilitation of facilities for AIDS education and prevention, use 03P.*

03Z Other Public Improvements Not listed in 03A–03T
This matrix code replaces matrix code 03. Only use this code when an activity does not fall under a more specific 03A – 03S matrix code. Check the following before using this matrix code: *Grantees may only have one public facility. When two or more related facilities are funded by CDBG, the grantee needs to set up a separate activity for each facility or improvement. *03Z can be used for seawalls, bus shelters, retaining walls, and wind turbines. *03Z can be used for activities that assist persons with disabilities by removing architectural barriers from or providing ADA improvements to government buildings (activities that otherwise would not be eligible for CDBG funding).*

06 Interim Assistance
Only for activities undertaken either to:
- Make limited improvements (e.g., repair of streets, sidewalks, or public buildings) intended solely to arrest further deterioration of physically deteriorated areas prior to making permanent improvements.
- Alleviate emergency conditions threatening public health and safety, such as removal of tree limbs or other debris after a major storm.

11 Privately Owned Utilities
Acquisition, reconstruction, rehabilitation, or installation of distribution lines and facilities of federally regulated, privately owned utilities. This includes placing new or existing distribution lines/facilities underground.

16B Non-Residential Historic Preservation
Rehabilitation of historic buildings for non-residential use. Examples include the renovation of an historic building for use as a neighborhood facility, as a museum, or by an historic preservation society.

23 Tornado Shelters Serving Private Mobile Home Parks
Construction or improvement of tornado-safe shelters for residents of manufactured housing parks and the provision of assistance (including loans and grants) to nonprofit and for-profit entities to do so, in accordance with Section 42 USC 5305(a)(24).

PUBLIC SERVICES
03T Homeless/AIDS Patients Programs
Costs associated with the operation of programs for the homeless or for AIDS patients, such as staff costs, utilities, maintenance, and insurance. Because payment of operating costs for these programs is a public service under CDBG, all CDBG expenditures for 03T activities are included in the calculation of the Public Services cap.

05A Senior Services
Services for the elderly. 05A may be used for an activity that serves both the elderly and persons with disabilities provided it is intended primarily to serve elderly. *If the activity is intended primarily to serve persons with disabilities, use 05B instead.*
05B Services for Persons with Disabilities
Services for persons with disabilities, regardless of age. If the activity is intended primarily for elderly persons, use 05A instead.

05C Legal Services
Services providing legal aid to low- and moderate-income (LMI) persons. If the only legal service provided is for the settlement of tenant/landlord disputes, use 05K.

05D Youth Services
Services for young people age 13 to 19 that include, for example, recreational services limited to teenagers and teen counseling programs. Also use 05D for counseling programs that target teens but include counseling for the family as well. For services for children age 12 and under, use 05L; for services for abused and neglected children, use 05N.

05E Transportation Services
General transportation services. Transportation services for a specific client group should use the matrix code for that client group. For example, use 05A for transportation services for the elderly.

05F Substance Abuse Services
Substance abuse recovery programs and substance abuse prevention/education activities. If the services are provided for a specific client group, the matrix code for that client group may be used instead. For example, substance abuse services that target teenagers may be coded either 05D or 05F.

05G Services for victims of domestic violence, dating violence, sexual assault or stalking
Services for victims of domestic violence, dating violence, sexual assault or stalking. For services limited to abused and neglected children, use 05N.

05H Employment Training
Assistance to increase self-sufficiency, including literacy, independent living skills, resume writing, job coaching, "how to get and keep a job" training, or training students in a particular field on skill when there is no tie to a specific position or business. For activities providing training for permanent jobs with specific businesses, use 18A.

05I Crime Awareness/Prevention
Promotion of crime awareness and prevention, including crime prevention education programs, community-oriented policing programs above and beyond normal staffing levels, installation of security cameras, and paying for security guards.

05J Fair Housing Activities (subject to Public Services cap)
Fair housing services (e.g. counseling on housing discrimination) that meet a national objective. For fair housing services activities carried out as part of general program administration (and thus not required to meet a national objective), use 21D.

05K Tenant/Landlord Counseling
Counseling to help prevent or settle disputes between tenants and landlords.

05L Child Care Services
Services that will benefit children (generally under age 13), including parenting skills classes. For services exclusively for abused and neglected children, use 05N.

05M Health Services
Services addressing the physical health needs of residents of the community. For mental health services, use 05O.

05N Services for Abused and Neglected Children
Daycare and other services exclusively for abused and neglected children.
**05O Mental Health Services**
Services addressing the mental health needs of residents of the community.

**05P Screening for Lead Poisoning**
Activities undertaken primarily to provide screening for lead poisoning. *Use 05P to test people for possible lead poisoning. Use 14I to test buildings/properties for presence of lead contamination.*

**05Q Subsistence Payments**
One-time or short-term (no more than three months) emergency payments on behalf of individuals or families, generally for the purpose of preventing homelessness. Examples include utility payments to prevent cutoff of service and rent/mortgage payments to prevent eviction.

**05R Homebuyer Downpayment Assistance – Excluding Housing Counseling under 24 CFR5.100**
Homebuyer downpayment assistance provided as a PUBLIC SERVICE. If housing counseling (under 24 CFR 5.100) is provided to in conjunction with downpayment assistance, report housing counseling separately under matrix code 05Y. If referral services, homeownership education programs, or general budget/financial counseling are provided to homebuyers in conjunction with downpayment assistance as part of a package, then the services are considered activity delivery costs as a part of an 05R activity. *It is subject to the public service cap, unless the assistance is provided by a CBDO in an NRSA or by 105(a)(15) entity. Only report the number of households that received downpayment assistance as accomplishments for 05R. For more extensive types of homeownership assistance provided under authority of the National Affordable Housing Act, use code 13B.*

**05S Rental Housing Subsidies**
Tenant subsidies exclusively for rental payments for more than three months. Activities providing this form of assistance must be carried out by CBDOs or 105(a)(15) entities.

**05T Security Deposits**
Tenant subsidies exclusively for payment of security deposits.

**05U Housing Counseling only, under 24 CFR 5.100**
Housing counseling, under 24 CFR 5.100, for renters, homeowners, and/or potential new homebuyers that is provided as an independent public service (i.e., not as part of another eligible housing activity).

**05V Neighborhood Cleanups**
One-time or short-term efforts to remove trash and debris from neighborhoods. Examples of legitimate uses of this code include neighborhood cleanup campaigns and graffiti removal.

**05W Food Banks**
Costs associated with the operation of food banks, community kitchens, and food pantries, such as staff costs, supplies, utilities, maintenance, and insurance.

**05X Housing Information and Referral Services**
An activity that provides housing information, education, and referral services, or general budget/financial counseling that does not meet the 24 CFR 5.100 definition of Housing Counseling.

**05Y Housing Counseling under 24 CFR 5.100 Supporting Homebuyer Downpayment Assistance (05R)**
Housing Counseling, under 24 CFR 5.100, that is provided to in conjunction with homebuyer downpayment assistance (05R) as a Public Service.

**05Z Other Public Services Not Listed in 03T and 05A-05Y**
This matrix code replaced matrix code 05. Only use this matrix code when an activity does not fall under a more specific 05A-05Y. An example of a legitimate use of this code is when the CDBG funds are provided to a non-profit organization that provides multiple type of social services for operating costs. In another example, when a public service activity that does not have a more specific matrix code, provides services to multiple groups of clients such as seniors, persons with disabilities, and homeless persons. For instance, for a "meals on wheels” program for seniors and persons with disabilities, use 05Z. If this program had only been available to seniors, the correct matrix code would have been 05A.
09 Loss of Rental Income
Payments to owners of housing for loss of rental income due to temporarily holding rental units for persons displaced by CDBG-assisted activities.

12 Construction of Housing
Construction of housing with CDBG funds must be either be: carried out by CBDOs, in accordance with the regulations at 570.204(a); in accordance with 42 USC 5305(a)(15); or last resort housing under the provisions of the Uniform Act, 42 USC Part 49.

13A Housing Counseling, under 24 CFR 5.100
Housing Counseling, under 24 CFR 5.100, when provided in conjunction with direct homeownership assistance 13B. Report housing counseling under matrix code 13A as a separate activity.

13B Homeownership Assistance – excluding Housing Counseling under 24 CFR 5.100
CDBG funds may be used to provide direct homeownership assistance under 24 CFR 570.201(n) and Section 105(a)(24) of the HCDA under the low-and moderate-income housing national objective [24 CFR 570.208(a)(3) and 570.483(b)(3)]. Direct homeownership assistance may include:
- Subsidizing interest rates and mortgage principal amounts to make loan payments affordable. This may include making grants to reduce the effective interest rates charged on the loans. Low-or-no-interest subordinate loans can also be used to reduce overall loan payments amounts.
- Financing the cost of acquiring property already occupied by renter households at terms needed to make the purchase affordable.
- Paying all or part of the premium on behalf of the homebuyer for mortgage insurance required upfront by a private mortgagee.
- Paying any or all of the reasonable closing costs associated with the home purchase on behalf of the homebuyer.
- Paying up to 50 percent of the down payment required by the mortgagee for the purchase on behalf of the homebuyer. (The 50 percent limitation on downpayment assistance is a statutory requirement. Grantee records must document what amount of downpayment is required by the mortgagees, and must clearly distinguish between the amount of CDBG funds being provided for downpayment assistance vs. the amount provided for subsidizing the mortgage principal, for closing costs, for mortgage insurance, etc.). *If Housing Counseling, under 24 CFR 5.100, is provided in conjunction with direct homeownership assistance, report housing counseling under matrix code 13A, as a separate activity; *If referral services, homeownership education programs, or general budget/financial counseling is provided to homebuyers in conjunction with homeownership assistance, the services are considered activity delivery costs as a part of a 13B activity; *All recipients of assistance provided under matrix code 13B must be low/moderate income and the activity must meet the LMH national objective. *Only report the number of households that received homeownership assistance as accomplishments for 13B.

14A Rehab: Single-Unit Residential
Rehabilitation of privately owned, single-unit homes. If Housing Counseling under 24 CFR 5.100 is provided in conjunction with rehabilitation, report Housing Counseling under matrix code 14L separately. If referral services, or general budget/financial counseling is provided to residents in conjunction with rehabilitation, the services are considered activity delivery costs as a part of a 14A activity.

14B Rehab: Multi-Unit Residential
Rehabilitation of privately owned buildings with two or more permanent residential units. If Housing Counseling under 24 CFR 5.100 is provided in conjunction with rehabilitation, report Housing Counseling under matrix code 14L separately. If referral services or general budget/financial counseling is provided to residents in conjunction with rehabilitation, the services are considered activity delivery costs as a part of a 14B activity. For the rehabilitation of units that will provide temporary shelter or transitional housing for the homeless, use 03C.

14C Rehab: Public Housing Modernization
Rehabilitation of housing units owned/operated by a public housing authority (PHA).
14D Rehab: Other Publicly Owned Residential Buildings
Rehabilitation of permanent housing owned by a public entity other than a PHA. For the rehabilitation of other publicly owned buildings that will provide temporary shelter or transitional housing for the homeless, use 03C.

14F Rehab: Energy Efficiency Improvements
Housing rehabilitation with the sole purpose of improving energy efficiency (e.g., a weatherization program). For energy efficiency improvements to public housing units, use 14C; for other publicly owned residential buildings, use 14D.

14G Rehab: Acquisition
Acquisition of property to be rehabilitated for housing. 14G may be used whether CDBG funds will pay only for acquisition or for both acquisition and rehabilitation.

14H Rehab: Administration
All delivery costs (including staff, other direct costs, and service costs) directly related to carrying out housing rehabilitation activities. Examples include appraisal, architectural, engineering, and other professional services; preparation of work specifications and work write-ups; loan processing and underwriting; survey, site and utility plans; application processing. 14H should be used when CDBG funds are used for activity delivery costs in implementing a program where the rehabilitation hard costs are paid with other funding sources. Do not use 14H for the cost of actual rehabilitation and do not use it for costs unrelated to running a rehab program (e.g., tenant/landlord counseling). For administration activities carried out as part of general program administration (and thus not required to meet a national objective), use code 21.

14I Lead-Based Paint/Lead Hazards Testing/Abatement
Housing rehabilitation activities with the primary goal of evaluating housing units for lead-paint hazards and reducing lead-based paint/lead hazards in units. For lead-based paint/lead hazards screening of persons, use 05P.

14J Housing Services - Excluding Housing Counseling under 24 CFR5.100
Housing services, except Housing Counseling, under 24 CFR 5.100, in support of the HOME Program, eligible under 570.201(k).

14K Housing Counseling under 24 CFR5.100, Supporting HOME Program Housing Activities
Housing Counseling, under 24 CFR 5.100, in support of a HOME-funded housing assistance program.

14L Housing Counseling under 24 CFR5.100, in Conjunction with CDBG-assisted Housing Rehab.
Housing Counseling, under 24 CFR 5.100, in support of CDBG assisted housing rehabilitation activities, including 14A-14D, 14F-14I, and 16A.

15 Code Enforcement
Salaries and overhead costs associated with property inspections and follow-up actions (such as legal proceedings) directly related to the enforcement (not correction) of state and local codes. For the rehabilitation hard costs of correcting of code violations, use the appropriate rehabilitation code under the 14* series.

16A Residential Historic Preservation
Rehabilitation of historic buildings for residential use. Use matrix code 16A when the preservation or restoration of historically significant features is the only work being done. If historic preservation work is done as part of other housing rehabilitation, then use the relevant 14* matrix code.

19E CDBG Operation and Repair of Foreclosed Property
Activities to prevent the abandonment and deterioration of housing acquired through tax foreclosure. These include making essential repairs to the housing and paying operating expenses to maintain its habitability.
ECONOMIC DEVELOPMENT

14E Rehab: Publicly or Privately Owned Commercial/Industrial
Rehabilitation of commercial/industrial property. If the property is privately owned, CDBG-funded rehab is limited to:
• Exterior improvements (generally referred to as “facade improvements”).
• Correction of code violations
For more extensive rehabilitation of privately owned commercial/industrial property, use 17C; for infrastructure developments and improvements at commercial/industrial sites, use 17B.

17A Commercial/Industrial: Acquisition/Disposition
Land acquisition, clearance of structures, or packaging of land for the purpose of creating industrial parks or promoting commercial/industrial development. 17A activities must be carried out by the grantee or by non-profits.

17B Commercial/Industrial: Infrastructure Development
Street, water, parking, rail transport, or other improvements to commercial/industrial sites. 17B also includes the installation of public improvements, such as the construction of streets to and through commercial/industrial areas. 17B activities must be carried out by the grantee or by non-profits.

17C Commercial/Industrial: Building Acquisition, Construction, Rehabilitation
Acquisition, construction, or rehabilitation of commercial/industrial buildings. 17C activities must be carried out by the grantee or by non-profits.

17D Commercial/Industrial: Other Improvements
Commercial/industrial improvements not covered by other 17* codes. 17D activities must be carried out by the grantee or by non-profits.

18A Economic Development: Direct Financial Assistance to For-Profits
Financial assistance to for-profit businesses to (for example) acquire property, clear structures, build, expand or rehabilitate a building, purchase equipment, or provide operating capital. Forms of assistance include loans, loan guarantees, and grants. With one exception, a separate 18A activity must be set up for each business assisted. If an activity is carried out under 24 CFR 570.208(a)(4)(vi) or 24 CFR 570.483(b)(4)(vi), job aggregation is allowed, and all businesses assisted during a program year may be combined in one activity.

18B Economic Development: Technical Assistance
Technical assistance to for-profit businesses, including workshops, assistance in developing business plans, marketing, and referrals to lenders or technical resources. Also use 18B for activity delivery costs eligible under 24 CFR 570.203(c).

18C Economic Development: Microenterprise Assistance
Financial assistance, technical assistance, or general support services to owners and developers of microenterprises. A microenterprise is a business with five or fewer employees, including the owner(s). The activity must be designed to exclusively serve microenterprises. With one exception, a separate activity must be set up for each microenterprise assisted. If an activity carried out under 24 CFR 570.208(a)(4)(vi) or 24 CFR 570.483(b)(4)(vi), job aggregation is allowed and all businesses may be combined in one activity.

GENERAL ADMIN

20 Planning
Program planning activities, including the development of comprehensive plans (e.g., a consolidated plan), community development plans, energy strategies, capacity building, environmental studies, area neighborhood plans, and functional plans. These activities, along with administration activities, are subject to the 20 percent limitation under 24 CFR 570.200(g) and 570.489(a)(3). Under State CDBG, this matrix code would only be used for planning done in conjunction with another eligible activity.

20A Program planning activities for when states award grants to units of general local government in which planning is the only activity, or in which planning activities are unrelated to any other activity
funded as part of the grant. These are often referred to as “planning-only grants”. These activities, along with administration activities, are subject to the 20 percent limitation under 24 CFR 570.489(a)(3).

21A General Program Administration
Overall program administration, including (but not limited to) salaries, wages, and related costs of grantee staff or others engaged in program management, monitoring, and evaluation. These activities, along with planning activities, are subject to the 20 percent limitation under 24 CFR 570.200(g) and 24 CFR 570.489(a)(3).

21B Indirect Costs
Costs charged as general program administration under an indirect cost allocation plan. These activities are subject to the 20 percent limitation under 24 CFR 570.200(g) and 24 CFR 570.489(a)(3).

21C Public Information
Providing information and other resources to residents and citizen organizations participating in the planning, implementation, or assessment of CDBG-assisted activities. These activities are subject to the 20 percent limitation under 24 CFR 570.200(g) and 24 CFR 570.489(a)(3).

21D Fair Housing Activities (subject to Admin cap)
Fair housing activities carried out as part of general program administration rather than as a public service. These activities are subject to the 20 percent limitation under 24 CFR 570.200(g) and 24 CFR 570.489(a)(3).

21E Submission of Applications for Federal Programs
Preparation of (1) documents that must be submitted to HUD to receive CDBG funds or (2) applications to other federal programs for community development assistance. These activities are subject to the 20 percent limitation under 24 CFR 570.200(g) and 24 CFR 570.489(a)(3).

21H CDBG Funding of HOME Administrative Costs
CDBG funding of administrative costs for HOME Program. These activities are subject to the 20 percent limitation under 24 CFR 570.200(g) and 24 CFR 570.489(a)(3).

21I CDBG Funding of HOME CHDO Operating Expenses
CDBG funding of CHDO operating expenses for HOME Program. These activities are subject to the 20 percent limitation under 24 CFR 570.200(g) and 24 CFR 570.489(a)(3).

21J State Program Administration
State Program administration, including (but not limited to) salaries, wages, and related costs required for overall program management, coordination, monitoring, reporting, and evaluation. These activities are subject to the $100,000 plus 3% limitation.

Other

07 Urban Renewal Completion
Completion of urban renewal projects funded under Title I of the Housing Act of 1949. Do not use code 07 for a downtown renewal, downtown development, or locally-created Urban Renewal activity unless the activity will result in the closing out of a federally approved urban renewal project. Only use for activities necessary to complete an existing Urban Renewal Plan.

19C CDBG Non-Profit Organization Capacity Building
Activities specifically designed to increase the capacity of non-profit organizations to carry out specific CDBG eligible neighborhood revitalization or economic development activities. Such activities may include providing technical assistance and specialized training to staff. The specific eligible activity for which capacity is being developed must meet a national objective. Payment of general operation and administrative costs of a non-profit organization is not eligible under this category.
### FY 2019 HUD Income Limits Summary

**Newark, NJ HUD Metro FMR Area**

**Median Income $100,600**

CITY OF ELIZABETH

2010 Census Tract Reference Map
ECONOMIC DEVELOPMENT

Eligible Activity Definitions/National Objectives

**Job Training**
Job training includes any project or program where low and moderate income persons receive assistance to increase self-sufficiency, including literacy, independent living skills, and job training. Job training would use the Limited Clientele (LMC) national objective.

**Microenterprise**
A micro-enterprise is a business with five or fewer employees, including the owner(s). CDBG funds can be used to provide financial assistance, technical assistance, or general support services to owners and developers of micro-enterprises. Microenterprise can use the Limited Clientele (LMC), Low Mod Area (LMA), or Low Mod Job (LMJ) national objective depending on the situation:

- If the owner of the microenterprise qualifies as low mod income, LMC can be used and the income certification is valid for three years. If the owner of the microenterprise is not low mod income, LMA or LMJ must be met.
- If the business service area is primarily residential and the business provides goods or services to the area, LMA can be used.
- If the owner of the microenterprise is not low mod income and LMA cannot be used, the microenterprise must meet the LMJ national objective.

**Technical Assistance**
CDBG funds can be used to provide technical assistance to for-profit businesses, including workshops, marketing, and referrals. Technical Assistance can use the Low Mod Area (LMA) or Low Mod Job (LMJ) national objective depending on the situation:

- If the business service area is primarily residential and the business provides goods or services to the area, LMA can be used.
- If LMA cannot be used, the business must meet the LMJ national objective by creating or retaining permanent jobs.

**Public Benefit Standards**
In addition to meeting a national objective, economic development activities must meet a public benefit standard. The public benefit standard is meant to ensure an excessive amount of funds is not used to produce a benefit. There are two standards: one for area-based activities and one for job-based activities.

- The public benefit standard for job-based activities states that not more than $35,000 will be spent for each permanent, full-time equivalent (FTE) position (40 hours per week) is created or retained. In other words, if the program has $350,000, the program would need to show that a minimum of 10 FTE jobs were created. The public benefit standard to all CDBG funds obligated to economic development activities in the program year (July to June).

- The public benefit standard for area-based activities states that not more than $350 will be spent for each low and moderate income person in the service area. In other words, if there are 1,000 persons in the service area, the public benefit standard would allow $350,000 in expenditures. The public benefit standard to all CDBG funds obligated to economic development activities in the program year (July to June).

**Notes:**

1. When the public facility undertaken will result in the creation of jobs and the cost (in CDBG funds) per job is $10,000 or more, the assisted activity must comply with the PBSs at 570.209(b).
2. For training or other employment support services, a LMC national objective can be met when the proportion of total project cost borne by CDBG is not greater than the proportion of the total number of persons who are Low/Mod.
3. LMA – Low/Mod Area Benefit
   - LMC – Low/Mod Limited Clientele
   - LMI – Low/Mod Job Creation or Retention
   - SBA – Slum and Blight Area
   - SBS – Slum and Blight Spot
§ 570.203 Special Economic Development Activities. A recipient may use CDBG funds for special economic development activities in addition to other activities authorized in this subpart that may be carried out as part of an economic development project. Guidelines for selecting activities to assist under this paragraph are provided at §570.209. The recipient must ensure that the appropriate level of public benefit will be derived pursuant to those guidelines before obligating funds under this authority. Special activities authorized under this section do not include assistance for the construction of new housing. Activities eligible under this section may include costs associated with project-specific assessment or remediation of known or suspected environmental contamination. Special economic development activities include: (a) The acquisition, construction, reconstruction, rehabilitation or installation of commercial or industrial buildings, structures, and other real property equipment and improvements, including railroad spurs or similar extensions. Such activities may be carried out by the recipient or public or private nonprofit subrecipients. (b) The provision of assistance to a private for-profit business, including, but not limited to, grants, loans, loan guarantees, interest supplements, technical assistance, and other forms of support, for any activity where the assistance is appropriate to carry out an economic development project, excluding those described as ineligible in §570.207(a). In selecting businesses to assist under this authority, the recipient shall minimize, to the extent practicable, displacement of existing businesses and jobs in neighborhoods. (c) Economic development services in connection with activities eligible under this section, including, but not limited to, outreach efforts to market available forms of assistance; screening of applicants; reviewing and underwriting applications for assistance; preparation of all necessary agreements; management of assisted activities; and the screening, referral, and placement of applicants for employment opportunities generated by CDBG-eligible economic development activities, including the costs of providing necessary training for persons filling those positions. [53 FR 34439, Sept. 6, 1988, as amended at 60 FR 1944, Jan. 5, 1995; 71 FR 30035, May 24, 2006]

§ 570.204 Special Activities by Community-Based Development Organizations (CBDOs). (a) Eligible activities. The recipient may provide CDBG funds as grants or loans to any CBDO qualified under this section to carry out a neighborhood revitalization, community economic development, or energy conservation project. The funded project activities may include those listed as eligible under this subpart, and, except as described in paragraph (b) of this section, activities not otherwise listed as eligible under this subpart. For purposes of qualifying as a project under paragraphs (a)(1), (a)(2), and (a)(3) of this section, the funded activity or activities may be considered either alone or in concert with other project activities either being carried out or for which funding has been committed. For purposes of this section: (1) Neighborhood revitalization project includes activities of sufficient size and scope to have an impact on the decline of a geographic location within the jurisdiction of a unit of general local government (but not the entire jurisdiction) designated in comprehensive plans, ordinances, or other local documents as a neighborhood, village, or similar geographical designation; or the entire jurisdiction of a unit of general local government which is under 25,000 population; (2) Community economic development project includes activities that increase economic opportunity, principally for persons of low- and moderate-income, or that stimulate or retain businesses or permanent jobs, including projects that include one or more such activities that are clearly needed to address a lack of affordable housing accessible to existing or planned jobs and those activities specified at 24 CFR 91.1(a)(1)(iii); activities under this paragraph may include costs associated with project-specific assessment or remediation of known or suspected environmental contamination; (3) Energy conservation project includes activities that address energy conservation, principally for the benefit of the residents of the recipient’s jurisdiction; and 20 (4) To carry out a project means that the CBDO undertakes the funded activities directly or through contract with an entity other than the grantee, or through the provision of financial assistance for activities in which it retains a direct and controlling involvement and responsibilities. (b) Ineligible activities. Notwithstanding that CBDOs may carry out activities that are not otherwise eligible under this subpart, this section does not authorize: (1) Carrying out an activity described as ineligible in §570.207(a); (2) Carrying out public services that do not meet the requirements of §570.201(e), except that: (i) Services carried out under this section that are specifically designed to increase economic opportunities through job training and placement and other employment support services, including, but not limited to, peer support programs, counseling, child care, transportation, and other similar services; and (ii) Services of any type carried out under this section pursuant to a
strategy approved by HUD under the provisions of 24 CFR 91.215(e) shall not be subject to the limitations in §570.201(e)(1) or (2), as applicable; (3) Providing assistance to activities that would otherwise be eligible under §570.203 that do not meet the requirements of §570.209; or (4) Carrying out an activity that would otherwise be eligible under §570.205 or §570.206, but that would result in the recipient's exceeding the spending limitation in §570.200(g).

(c) Eligible CBDOs. (1) A CBDO qualifying under this section is an organization which has the following characteristics: (i) Is an association or corporation organized under State or local law to engage in community development activities (which may include housing and economic development activities) primarily within an identified geographic area of operation within the jurisdiction of the recipient, or in the case of an urban county, the jurisdiction of the county; and (ii) Has as its primary purpose the improvement of the physical, economic or social environment of its geographic area of operation by addressing one or more critical problems of the area, with particular attention to the needs of persons of low and moderate income; and (iii) May be either non-profit or for-profit, provided any monetary profits to its shareholders or members must be only incidental to its operations; and (iv) Maintains at least 51 percent of its governing body's membership for low- and moderate-income residents of its geographic area of operation, owners or senior officers of private establishments and other institutions located in and serving its geographic area of operation, or representatives of low- and moderate-income neighborhood organizations located in its geographic area of operation; and (v) Is not an agency or instrumentality of the recipient and does not permit more than one-third of the membership of its governing body to be appointed by, or to consist of, elected or other public officials or employees or officials of an ineligible entity (even though such persons may be otherwise qualified under paragraph (c)(1)(iv) of this section); and (vi) Except as otherwise authorized in paragraph (c)(1)(v) of this section, requires the members of its governing body to be nominated and approved by the general membership of the organization, or by its permanent governing body; and (vii) Is not subject to requirements under which its assets revert to the recipient upon dissolution; and (viii) Is free to contract for goods and services from vendors of its own choosing. 21 (2) A CBDO that does not meet the criteria in paragraph (c)(1) of this section may also qualify as an eligible entity under this section if it meets one of the following requirements: (i) Is an entity organized pursuant to section 301(d) of the Small Business Investment Act of 1958 (15 U.S.C. 681(d)), including those which are profit making; or (ii) Is an SBA approved Section 501 State Development Company or Section 502 Local Development Company, or an SBA Certified Section 503 Company under the Small Business Investment Act of 1958, as amended; or (iii) Is a Community Housing Development Organization (CHDO) under 24 CFR 92.2, designated as a CHDO by the HOME Investment Partnerships program participating jurisdiction, with a geographic area of operation of no more than one neighborhood, and has received HOME funds under 24 CFR 92.300 or is expected to receive HOME funds as described in and documented in accordance with 24 CFR 92.300(e). (3) A CBDO that does not qualify under paragraph (c)(1) or (2) of this section may also be determined to qualify as an eligible entity under this section if the recipient demonstrates to the satisfaction of HUD, through the provision of information regarding the organization's charter and by-laws, that the organization is sufficiently similar in purpose, function, and scope to those entities qualifying under paragraph (c)(1) or (2) of this section.

§ 570.209 Guidelines for Evaluating and Selecting Economic Development Projects. The following guidelines are provided to assist the recipient to evaluate and select activities to be carried out for economic development purposes. Specifically, these guidelines are applicable to activities that are eligible for CDBG assistance under §570.203. These guidelines also apply to activities carried out under the authority of §570.204 that would otherwise be eligible under §570.203, were it not for the involvement of a Community-Based Development Organization (CBDO). (This would include activities where a CBDO makes loans to for-profit businesses.) These guidelines are composed of two components: guidelines for evaluating project costs and financial requirements; and standards for evaluating public benefit. The standards for evaluating public benefit are mandatory, but the guidelines for evaluating projects costs and financial requirements are not. (a) Guidelines and objectives for evaluating project costs and financial requirements. HUD has developed guidelines that are designed to provide the recipient with a framework for financially underwriting and selecting CDBG-assisted economic development projects which are financially viable and will make the most effective use of the CDBG funds. These guidelines, also referred to as the underwriting guidelines, are published as appendix A to this part. The use of the underwriting guidelines published by HUD is not mandatory. However, grantees electing not to use these guidelines would be expected to conduct basic financial underwriting prior to the provision of CDBG financial assistance to a for-profit business. Where appropriate, HUD's underwriting guidelines recognize that different levels of review are appropriate to take into account differences in the size and scope of a proposed project, and in the case of a microenterprise or other small business to take into account the differences in the capacity and level of sophistication among businesses of differing sizes. Recipients are encouraged, when they develop their own programs
and underwriting criteria, to also take these factors into account. The objectives of the underwriting guidelines are to ensure: (1) That project costs are reasonable; (2) That all sources of project financing are committed; (3) That to the extent practicable, CDBG funds are not substituted for non-Federal financial support; (4) That the project is financially feasible; 34 (5) That to the extent practicable, the return on the owner's equity investment will not be unreasonably high; and (6) That to the extent practicable, CDBG funds are disbursed on a pro rata basis with other finances provided to the project. (b) Standards for evaluating public benefit. The grantee is responsible for making sure that at least a minimum level of public benefit is obtained from the expenditure of CDBG funds under the categories of eligibility governed by these guidelines. The standards set forth below identify the types of public benefit that will be recognized for this purpose and the minimum level of each that must be obtained for the amount of CDBG funds used. Unlike the guidelines for project costs and financial requirements covered under paragraph (a) of this section, the use of the standards for public benefit is mandatory. Certain public facilities and improvements eligible under §570.201(c) of the regulations, which are undertaken for economic development purposes, are also subject to these standards, as specified in §570.208(a)(4)(vi)(F) (2). (1) Standards for activities in the aggregate. Activities covered by these guidelines must, in the aggregate, either: (i) Create or retain at least one full-time equivalent, permanent job per $35,000 of CDBG funds used; or (ii) Provide goods or services to residents of an area, such that the number of low- and moderate-income persons residing in the areas served by the assisted businesses amounts to at least one low- and moderate-income person per $350 of CDBG funds used. (2) Applying the aggregate standards. (i) A metropolitan city, an urban county, a non-entitlement CDBG grantee in Hawaii, or an Insular Area shall apply the aggregate standards under paragraph (b)(1) of this section to all applicable activities for which CDBG funds are first obligated within each single CDBG program year, without regard to the source year of the funds used for the activities. For Insular Areas, the preceding sentence applies to grants received in program years after Fiscal Year 2004. A grantee under the HUD-administered Small Cities Program, or Insular Areas CDBG grants prior to Fiscal Year 2005, shall apply the aggregate standards under paragraph (b)(1) of this section to all funds obligated for applicable activities from a given grant; program income obligated for applicable activities will, for these purposes, be aggregated with the most recent open grant. For any time period in which a community has no open HUD-administered or Insular Areas grants, the aggregate standards shall be applied to all applicable activities for which program income is obligated during that period. (ii) The grantee shall apply the aggregate standards to the number of jobs to be created/retained, or to the number of persons residing in the area served (as applicable), as determined at the time funds are obligated to activities. (iii) Where an activity is expected both to create or retain jobs and to provide goods or services to residents of an area, the grantee may elect to count the activity under either the jobs standard or the area resident’s standard, but not both. (iv) Where CDBG assistance for an activity is limited to job training and placement and/or other employment support services, the jobs assisted with CDBG funds shall be considered to be created or retained jobs for the purposes of applying the aggregate standards. (v) Any activity subject to these guidelines which meets one or more of the following criteria may, at the grantee’s option, be excluded from the aggregate standards described in paragraph (b)(1) of this section: (A) Provides jobs exclusively for unemployed persons or participants in one or more of the following programs: (1) Jobs Training Partnership Act (JTPA); (2) Jobs Opportunities for Basic Skills (JOBS); or (3) Aid to Families with Dependent Children (AFDC); (B) Provides jobs predominantly for residents of Public and Indian Housing units; (C) Provides jobs predominantly for homeless persons; (D) Provides jobs predominantly for low-skilled, low- and moderate-income persons, where the business agrees to provide clear opportunities for promotion and economic advancement, such as through the provision of training; (E) Provides jobs predominantly for persons residing within a census tract (or block numbering area) that has at least 20 percent of its residents who are in poverty; (F) Provides assistance to business(es) that operate(s) within a census tract (or block numbering area) that has at least 20 percent of its residents who are in poverty; (G) Stabilizes or revitalizes a neighborhood that has at least 70 percent of its residents who are low- and moderate income; (H) Provides assistance to a Community Development Financial Institution that serve an area that is predominantly low- and moderate-income persons; (I) Provides assistance to a Community-Based Development Organization serving a neighborhood that has at least 70 percent of its residents who are low- and moderate-income; (J) Provides employment opportunities that are an integral component of a project designed to promote spatial de-concentration of low- and moderate-income and minority persons; (K) With prior HUD approval, provides substantial benefit to low-income persons through other innovative approaches; (L) Provides services to the residents of an area pursuant to a strategy approved by HUD under the provisions of §91.215(e) of this title; (M) Creates or retains jobs through businesses assisted in an area pursuant to a strategy approved by HUD under the provisions of §91.215(e) of this title. (N) Directly involves the economic development or redevelopment of environmentally contaminated properties. (3) Standards for individual activities. Any activity subject to these guidelines which falls into one or more of the following categories will be considered by HUD to
provide insufficient public benefit, and therefore may under no circumstances be assisted with CDBG funds: (i) The amount of CDBG assistance exceeds either of the following, as applicable: (A) $50,000 per full-time equivalent, permanent job created or retained; or (B) $1,000 per low- and moderate-income person to which goods or services are provided by the activity. (ii) The activity consists of or includes any of the following: (A) General promotion of the community as a whole (as opposed to the promotion of specific areas and programs); (B) Assistance to professional sports teams; (C) Assistance to privately-owned recreational facilities that serve a predominantly higher-income clientele, where the recreational benefit to users or members clearly outweighs employment or other benefits to low- and moderate income persons; (D) Acquisition of land for which the specific proposed use has not yet been identified; and (E) Assistance to a for-profit business while that business or any other business owned by the same person(s) or entity(ies) is the subject of unresolved findings of noncompliance relating to previous CDBG assistance provided by the recipient. (4) Applying the individual activity standards. (i) Where an activity is expected both to create or retain jobs and to provide goods or services to residents of an area, it will be disqualified only if the amount of CDBG assistance exceeds both of the amounts in paragraph (b)(3)(i) of this section. (ii) The individual activity standards in paragraph (b)(3)(i) of this section shall be applied to the number of jobs to be created or retained, or to the number of persons residing in the area served (as applicable), as determined at the time funds are obligated to activities. (iii) Where CDBG assistance for an activity is limited to job training and placement and/or other employment support services, the jobs assisted with CDBG funds shall be considered to be created or retained jobs for the purposes of applying the individual activity standards in paragraph (b)(3)(i) of this section. (c) Amendments to economic development projects after review determinations. If, after the grantee enters into a contract to provide assistance to a project, the scope or financial elements of the project change to the extent that a significant contract amendment is appropriate, the project should be reevaluated under these and the recipient's guidelines. (This would include, for example, situations where the business requests a change in the amount or terms of assistance being provided, or an extension to the loan payment period required in the contract.) If a reevaluation of the project indicates that the financial elements and public benefit to be derived have also substantially changed, then the recipient should make appropriate adjustments in the amount, type, terms or conditions of CDBG assistance which has been offered, to reflect the impact of the substantial change. (For example, if a change in the project elements results in a substantial reduction of the total project costs, it may be appropriate for the recipient to reduce the amount of total CDBG assistance.) If the amount of CDBG assistance provided to the project is increased, the amended project must still comply with the public benefit standards under paragraph (b) of this section. (d) Documentation. The grantee must maintain sufficient records to demonstrate the level of public benefit, based on the above standards, that is actually achieved upon completion of the CDBG-assisted economic development activity(ies) and how that compares to the level of such benefit anticipated when the CDBG assistance was obligated. If the grantee's actual results show a pattern of substantial variation from anticipated results, the grantee is expected to take all actions reasonably within its control to improve the accuracy of its projections. If the actual results demonstrate that the recipient has failed the public benefit standards, HUD may require the recipient to meet more stringent standards in future years as appropriate.
