Supp Info final Heredia mbp v091020
The Applicant’s requested relief is minor in nature and relates only to the size of the garage building being constructed, and the amenities being provided for the tenants of the subject property. In addition to the new garage, Applicant is planning to extend the existing gravel driveway, as the location of the new garage allows to Applicant to utilize more of the lot and provide additional amenities for the tenants, including installation of a recreation area and to increase the landscaping and buffers on the Property.

The testimony to be offered at the hearing on this Application will demonstrate the variances requested can be granted without substantial detriment to the public good and without substantial impairment to the intent of the City’s Master Plan. For these reasons, the Applicant respectfully requests the approval of this Application.

II. Zoning Considerations:

This application should be approved based upon the information contained in the application, the testimony offered at the hearing and for the following reasons:

1. The benefits of the requested relief outweigh any detriments.

2. The proposed Application is consistent with the intent and purposes of the Master Plan and Land Development Ordinance of City of Elizabeth.

3. This application can be granted without substantial detriment to the neighboring properties or to the public good.

4. Granting this Application will not impair the intent and purposes of the Zone Plan and Land Development Ordinance of the City of Elizabeth.

5. There will be no negative impact on the free flow of traffic in the community.

Respectfully submitted,
Javerbaum Wurgaft
Stephen H. Hehl, Esq.
Attorney for Applicant, Juan Heredia
